

**REMARKS**

Please amend the title as requested above. During prosecution of this application, the title changed in the Patent Office records from "Flexible Circuit Having an Integrally Formed Battery" to "Method of Forming a Battery on a Flexible Substrate." However, the applicant did not amend the title during prosecution. Nor did the Patent Office indicate an Examiner's Amendment was made to change the title. The foregoing amendment restores the title to its original language.

The applicant respectfully submits that the foregoing amendment to the title does not change the scope of the claims. The applicant also submits that this amendment does not add any new matter.

Please contact the undersigned attorney if there are any questions.

Respectfully submitted,
